

Enmanuel Guerrero Santana

Santo Domingo, Dominican Republic • +1 809 706 1588 • enmanuelgs002@gmail.com • github.com/enmanuelgs • egsportafolio.vercel.app

Software development student at the Las Americas Institute of Technology. Developer with experience in full-stack and backend web development. Proficient in HTML, CSS, JavaScript, and Bootstrap for the frontend, with knowledge in React and Node.js in the process of consolidation. Experience in backend development with C# .NET, including the creation of APIs and worker services applying design patterns and onion architecture. Competent in SQL databases with MSSQL, RDBMS, and Oracle managers. Familiar with collaborative work using Git for version control and SCRUM methodology on platforms such as JIRA and Azure DevOps.

EXPERIENCE

Central Directorate of Intelligence and Technology P.N. (DINTEL)
Technology Department Intern

**Santo Domingo,
Dominican Republic**
September 2022 – June 2023

- Developed an equipment control system as a desktop application for the department using C# .NET and SQL Server Management Studio.
- Collaborated on software maintenance for equipment requesting technical support from the department, addressing Tier 1 and Tier 2 issues.
- Prepared reports related to the hardware and software status of the institution's equipment through intermediate and advanced use of the Microsoft Office Suite.

Politecnico Belisario Peguero Guerrero
Registration System Developer

**Santo Domingo,
Dominican Republic**
January 2022 – August 2022

- Developed a system for the registration department with the objective of optimizing the department's administrative processes and business logic using C# .NET and SQL Server Management Studio.
- Led the work team applying the SCRUM agile methodology, where 2-week sprints were managed.
- Prepared the project documentation related to UML component diagrams, flowcharts, use cases, activity diagrams, and others.
